
ADHESIVE REMOVER

Revision: 12/03/2009**Page 1 of 1****Technical data**

Base	Mixture based on low boiling solvents
Consistence	Liquid
Density	0,847g/mL
Viscosity (20°C)	1 mPa.s
Solubility in water	Insoluble
VOC content	97%

Product:

Transparent solvent mixture suitable for removing fresh glue stains and for the cleaning and degreasing of metal surfaces.

Applications:

Transparent solvent mixture suitable for removing fresh glue stains and cleans brushes, palette knives and glue spatulas. Removes hard excess contact glue. Not suitable for polystyrene and Plexiglas. May damage certain surfaces (e.g. plastics).

Characteristics:

- Removes fresh glue stains
- Cleans and degreases
- Does not leave residue
- Fast curing
- Highly flammable
- Aerosol can be used in any angle (360°)

Packaging:

Colour: transparent

Packaging: aerosol can of 400 ml / 6 units per box

Shelf Life:

3 years in an unopened packaging stored in a cool and dry place with temperatures between +5°C and +25°C.

Instructions:

Shake aerosol before usage. After applying rub the surface dry with a clean towel. Always rub in one direction. To avoid damage to the surface we recommend a preliminary test.

Health and Safety Recommendations:

Use only in well-ventilated areas. Do not smoke. In case of contact with eyes, rinse immediately with plenty of water.

Remark: The directives contained in this documentation are the result of our experiments and of our experience and have been submitted in good faith. Because of the diversity of the materials and substrates and the great number of possible applications which are out of our control, we cannot accept any responsibility for the results obtained. In every case it is recommended to carry out preliminary experiments
