Seven Hills NSW 2147

Dear Scott

ATFA is pleased to advise that we have approved your ATFA Product Compliance for the following products, as at April 17<sup>th</sup> 2017:

- Soudal SMX-20 Plus Adhesive
- Soudal SMX-30 Plus Adhesive

As a result of achieving compliance, you are now able to use the following logo on your products to inform users that your product is ATFA compliant (this has been emailed to you separately).

Visit [atfa.com.au](http://atfa.com.au) for compliance information

Please note, it is important that the logo remains legible when used on your products, particularly the 'visit ATFA' information at the bottom. It is permissible to change the colour of the logo to black or grey, as long as it remains clear. An eps file is available if required.

A renewal invoice for product compliance will be issued on July 1<sup>st</sup> 2018. Once again, congratulations.

Yours sincerely

Randy Flierman
